

Akrapovič Titanium Solutions is hiring a student over the summer to assist the firm identify new markets, customers and target segments where its titanium casted parts could be used.

We are searching for:

- Student (preferably senior year) of economics or mechanical engineering
- A student who is a quick learner, team player and willing to think of out-of-the-box solutions when it comes to approaching potential leads to identify opportunities for the company.
- Knowledge of MS Office products is required (Word, Excel, PowerPoint, OneNote)
- Proficiency in English is a must and German language knowledge while not mandatory is an added benefit
- Student with their own organized transport to and from Akrapovič company.
- Student available from now until end of September 2019 with possibility for extension

What do we offer you:

- Experience to learn about different industries at one of Slovenia's most well-known companies
- The ability to interact with people on both technical and commercial levels and get real-world work experience
- Practical learning opportunity in a worker friendly environment where people are willing to help you learn
- The opportunity to utilize your summer in a productive manner

Job location: Ivančna Gorica, Slovenia. Internship is paid.

Please submit your CV/Resume in English/Slovenian language to foundry@akrapovic.com.
